Olon’s LINK25 Formable Laminate is postformable for edges, tops or corners.

Available in perfect colour matches to TFL and HPL, it is ideal for refacing or new installations and is recommended for vertical or light duty horizontal surfaces.

LINK25 is NEXGEN® certified and complements the full product selection of kitchen door components, accessory mouldings, and edgebanding available from Olon.

1.800.387.2319 • www.olon.com
Olon NEXGEN® LINK25 Formable Laminate is intended for application to vertical or light duty horizontal surfaces where design, appearance, quality, durability and outstanding resistance to impact, scuff, stain, wear and heat resistance are required.

Notable Features
- Exact match to over 220 TFL (melamine) colours
- High heat and scratch resistance
- Colour remains consistent year after year
- Antimicrobial protection is built into the manufacturing process
- Postformable
- Cuts easily with sheers, straight edge knife or scissors
- Bondable with most conventional adhesives
- Great for onsite resurfacing or new installations
- Performance measured by NEMA LD3-2005

For more technical information, please go to the downloads section of www.olon.com
